Summary

Self-taught software engineer with 5+ years of experience leading the development of complex systems—from architecture to deployment, optimization, and ongoing improvement. Proven ability to finish projects as the primary technical owner, building scalable applications on multiple platforms. Seeking an in-person or remote software engineering position where I can utilize my skillset with purpose.

Experience

Lead Software Engineer

Mobile App Development | January 2026 – Present

- Creating applications for multi-platform mobile devices on Apple iOS such as iPhone and iPad.
- Designing mobile UI layouts, front-end graphics, and project architectures for multiple applications.
- Integrating mobile functionality including push notifications, in-app purchases (IAP), and AdMob SDKs via Godot C++ modules and community plugins.

Software Engineer

Lowe's Home Improvement, Charlotte, NC | January 2023 – December 2025

- Designed and implemented scalable Python APIs (Flask, FastAPI) and microservices that supported over 500+ internal employees with emphasis on C-level executive reporting.
- Owned the architecture and maintenance of ETL pipelines processing ~150GB of data monthly, integrating databases into analytical models for executive dashboards (React) that informed \$15M+ in business decisions.
- Developed automations around security software for threat detection, asset patching, firewall protocols, and compliance reporting.

Merchandising Service Associate

Lowe's Home Improvement, Coralville, IA | April 2022 – January 2023

- Coordinated teams to construct physical marketing displays for branded items and products that directly impacted store revenue.
- 3D-printed a pricing sign-adaptor outside of normal working hours to reuse electronic signage throughout the store for any product display.

Education

Bachelor of Science, Software Development

Bellevue University | 2022 – 2024 (Graduated, 4.0 GPA)

- Cybersecurity Club
- PTK Honors Society

Technical Proficiency

- **Languages:** Python, JavaScript, Java, SQL, GDScript, Bash/Shell
- **Database & Cloud:** PostgreSQL, MySQL, AWS, Azure, GCP
- **DevOps & Tools:** Git, CICD (Jenkins), Docker/Podman, Kubernetes, Grafana, PowerBI,
- **Machine Learning Libraries:** Tensorflow, Pytorch, LightGBM, NumPy, SciPy
